BRITISH YIELD A POINT ON CONTRABAND CARGOES

*Negotiations in London Retarded by
Discovery of False Manifest.*

Wilson Still Confident Position of United States will be Recognized as Just, as it is Based on Precedent Established by England in Russian - Japanese War. German Advance in Poland Halted.

[BY A. P. NIGHT WIRE.]

ROME, Jan. 3.—The Dutch steamer Rotterdam, just returned from New York, has been seized by the Genoa police. It was discovered that under her cargo of grain an enormous quantity of copper had been hidden, besides boxes containing munitions, all destined for Germany.

WASHINGTON, Jan. 3.—The British Embassy issued tonight its first statement on the shipping situation since the publication of the American note on the interference with American trade by Germany.

one point on which the United States had asked for information, by announcing that turpentine and rosin shipped from this country before those articles were declared contraband would be paid for when seized.

"Turpentine and rosin shipped before the publication of the order placing them on the contraband list will be paid for."

"All copper shipped before the date of the declaration that copper was contraband has been paid for or released.

near Koszkie and moving in the general direction of Radom. The Russian troops are reported to be around Groitz, in basing themselves.

Military men here express the opinion that it is now apparent that the Russian army is not so much Warsaw, as capture would give him a strategic advantage, as Nowo Georgiewsk, in the direction of the Germans in the last days of the war, was the last time the Germans were seen the latter two places, were secured, however, that the Germans still sixty or seventy miles from Nowo Georgiewsk and that every day the probability of taking these places is increased.

The general opinion expressed here is that the Russian army is Petrograd is that neither the Russian army nor the Russian government is ready for adjustment to the perfection of the German man technique and ferocious attack and the effect of the German heavy artillery now in action in Poland.

Bread Line for Jobs.

(Continued from First Page.)

to whom they had promised State jobs. Soon it became apparent that there were five men for every place. Friendship ceased; it was brother against brother. Senator Lyon of Los Angeles brought his five with him by way of San Francisco. Some enmity was roused when the others learned that Lyon had his men viced by Boss Finn before the rush started. There was a demand that his allowance be cut to two appointees, and this is still being argued in the lobby.

Country Assemblymen who have yet to learn the ropes wandered disconsolately about the corridors, each trailed by a forlorn line of henchmen, who switched and switched through the crowded lobby like tails to so many kites.

When the tension over the Democratic and Republican caucuses became strained about the middle of the afternoon Boss Finn and his lieutenants came in a body to the lobby. They had learned that a couple of Democrats supposed to be host-tied, had signed a call to their party caucus, so the big bosses and the bosses mingled with the crowd to hold the others in line.

When Finn appeared a pack of "Progressive" Assemblymen went running up to him, pulling at his coat.

SITUATION IN BALKANS IS GROWING WORSE.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Jan. 2.—No decisive engagements are noted in the latest official communications issued by the various governments. The situation in Belgium and Northern France has not changed materially in several weeks past, while in the east the reports are at variance.

From Petrograd it is announced that the Russians have successfully repulsed the German attacks on the Bzura and Rawka rivers, while the Germans announce the capture by their forces of Borjow, a strong Russian point. To the east of the Rawka River the German attack is proceeding steadily.

Newspaper dispatches forecast possible grave happenings in the Balkans. The revolutionary situation in Albania is said to have grown much worse and it is declared that the efforts of the Christian Balkan states to secure the neutrality of Bulgaria apparently have not met with complete success, and that Greece, Servia and Rumania are preparing for eventualities.

Conscription may be enforced in Great Britain. This was intimated in a speech made by Thomas J. MacNamara, Parliamentary Secretary to the Admiralty. Referring to men without dependents who have not enlisted he said:

"If they think they are going to enjoy a life of freedom at the other fellow's expense, they won't enjoy it much longer."

Pope Benedict is hopeful that during January many wounded soldiers incapable of further fighting will be returned to their home countries. Most of the belligerent nations have agreed to the Pope's request for an exchange of such prisoners.

Great Britain has notified the United States government that seized cargoes of turpentine, rosin and copper shipped before they were placed on the contraband list have been or will be paid for.

The transfer of the mothers and the babies and the physical equipment of the Florence Crittendon Home from the old headquarters at Seventeenth and Santa streets to the handsome new four-story building on Avenue Thirty-three, near Griffith avenue, was completed yesterday. The

Success.
In the neighborhood when the babies moved in, Mr. Mitchell said. "I believe there has been a change of feeling and I predict there will be a further change in favor of the home as its work becomes more familiar to the neighbors. I prophesy that in a short while some of the home's most loyal supporters will be found right there in the neighborhood."

DID YOU KNOW THAT—
There Were Nearly Five Thousand Miles of Wind Last Month.

During last month there were 4599 miles of wind in Los Angeles. Any old witch that could ride it could have gone the same distance as around the world. No one realized the weather was unrelenting so much wind. It came sneaking in from the northeast with sort of a slow, easy gallop, not doing over eight miles an hour much of the time. Occasionally it would sprint, having much pleasure in taking the downtown corners at a gusty rate. Then it would slow up and go trotting out of town. The fastest time it made was thirty-one miles an hour, and it kept that pace for five minutes, to the great concern of unanchored blinds and restless shingles, also wearing apparel of the lighter sort. The average temperature for the month was fifty-three and four-

Good-bye!—Hello!

SHOT HALTS FUGITIVE.

Bolts for Liberty but Changes Mind
with Bullet in Leg—Two Held on
Suspicion.

Breaking away from Patrolman Crandall, who had just searched and relieved him of a large revolver, Marco Morikich, arrested on suspicion of being a hold-up man, early last night attempted to escape. One of five shots sent after him by the patrolman struck him in the left leg and brought the fugitive to a standstill. The shooting took place near Macy street and the Los Angeles River bed.

With Morikich at the time of his arrest was Steve Malich, who was also armed with a revolver. Both were arrested by Officers Crandall and Fordyce. While Patrolman Fordyce was searching Malich, the other prisoner made a dash for liberty. Both the prisoners are held for investigation.

Tragic.
"NO WORK, NO
HOPE, NO USE."

SO MEDITATES MAN WITH SIX
DOLLARS AND A WATCH.

Leaving Behind His Earthly Possessions He Swims Out to Where the Sky Meets the Ocean, and Only a Lone Seagull Saw What Happened.

With \$6 and a watch, S. H. Eckhardt, No. 4012 Compton avenue, could find no hope in life. So he went out to sea yesterday at Venice and no one has seen him come back, and his clothes and the watch and the \$6 were left behind in one of the bathhouse dressing-rooms.

No one knows his trade or his identity. He came to Venice yesterday with many others for a Sunday swim, the surf having been a mild one for the seasoned swimmer. Quite a few persons were in the water, but not so many that one was lost in the group. So when the person who was later identified as S. H. Eckhardt walked from the bath-house to the strand, he was noticed. He had left his room in his bathing suit, Mr. Eckhardt evidently had summed up his condition in one short sentence.

It read: "No work, no hope, no use" and was later found pinned to his clothing behind the locked door. Beside it lay the \$6 in currency and the watch that was ticking faithfully.

Not once after he left the shelter of the bath-house did the man turn his head. He walked into the water, and the whiteness of his skin did not indicate a hardened swimmer. But he didn't flinch. Above his knees the water came, and when about his waist, and as it reached his shoulders, he bent over with his face to sea, and took a breather.

Farther out he came to the surface again, plowing for the open sea. The men on the beach were playing games to keep warm.

Some one noted the swimmer a little later. "Quite a ways out" and that was all that was said.

Not once did he turn his head. To those on land who were getting ready for their warm rubs he grew smaller and smaller. And at last far out in the distance, where the vagueness of death itself is hinted in the tint where sky meets sea, they saw the small spot bobbing and a straining eye could see it bobbing again, and then the little spot went out to sea, and all that came back, after a short swim, was a sea gull that had something important to tell its mate.

The officials are hunting relatives of the man who could find no hope in \$6 and a watch.

Bartlett Music Co. at it again. Forty years of successful business has taught us how to sell pianos at less than others. Great ten-days' sale now on. One whole year's payments free. This is your opportunity.

MASS OF LETTERS TELL OF RELIEF AKOZ HAS GIVEN TO THOUSANDS

New Medicinal Mineral Has Found Great Favor Because of
Wonderful Curative Properties

No stronger proof of the merit of Akoz could be found than the great mass of letters from those who have been relieved of their ailments by using this exceptional mineral discovered near Yosemite Valley by John D. Mackenzie, former State Labor Commissioner and State Harbor Commissioner.

Akoz has won a most enviable place as a remedy for rheumatism, stomach, kidney bladder and liver trouble, eczema, catarrh, piles and other ailments during the year and a half it has been on the market.

Of the thousands who have ended their ailments by using Akoz, following is a list of a few of the residents of Los Angeles and vicinity, who have voluntarily written the Natura Company, telling of their recovery:

Mrs. Frank Johnson, 421 S. Fremont st., rheumatism and stomach trouble.

John F. Cronin, claim adjuster, 2718 E. Second st., rheumatism.

E. D. Zehner, real estate dealer, 2044 Milan ave., rheumatism and neuritis.

T. J. Dunnigan, head porter, Van Nuys Hotel, stomach trouble and piles.

Sen. W. H. Savage, attorney, San Pedro, stomach trouble and bronchitis.

Mrs. Clara Witherspoon, 324 Ave. 52, Garvanza, catarrh, rheumatism and paralysis.

S. J. Brown, 115 W. Seventeenth st., rheumatism.

G. W. and J. N. McCay, Redlands, rheumatism and chronic constipation.

Llewellyn Iron Works, emergency cases, as cuts, burns, sprains and bruises.

Mrs. Frank Jackson, 408 W. Forty-seventh place, rheumatism.

Spiro Mandich, 529 W. Seventy-fourth st., rheumatism, stomach and bladder trouble.

C. S. Brzoka, grocer, 3013 W. Seventh street, sciatic rheumatism.

H. J. Boege, 136 S. Central ave., rheumatism.

G. Denbroeder, ship fitter, 150 W. Third st., Long Beach, kidney trouble.

"If only I had that old-time endurance"

AND as the years slip by, there comes to every man a longing for that old-time endurance of youth when no task, no effort seemed too much. You, too, have known that longing; and perhaps you, too, have come to realize that stimulants can not supply the reserve forces on which endurance rests. Know, then, that in Sanatogen you are offered a true tonic which science has proved will actually make good the overdrifts upon the system, help you regain the old-time energy and store up new vigor for the days to come.

For Sanatogen, at once a food and a tonic, not only nourishes the nerves and the tissues, replacing the waste and reinvigorating, but tones up the whole system through its steady rebuilding influences.

David Holmes, the eminent dramatic author, writes: "I give you pleasure in the knowledge that I have experienced from the effect upon the nerves, and I heartily recommend it to all who, like me, are afflicted by nervousness or any general weakness. I can readily vouch for its rebuilding qualities."

Dr. Gilbert Parker, M. P., the eminent novelist, writes from London: "Sanatogen has for me been a tonic, invigorating the nerves, increasing the energy, and giving back vigor to the overworked body and mind."

And when you think that scores and scores of other equally celebrated people have found in Sanatogen the kindly help they sought—and that more than 21,000 doctors have endorsed Sanatogen in letters sincere and enthusiastic—can you refuse your nerves this wonderful, endurance-building help of Sanatogen? Sanatogen is sold by good druggists everywhere, in three sizes, from \$1.00.

Grand Prize, International Congress of Medicine, London, 1912

SANATOGEN

ENDORSED BY OVER 21,000 PHYSICIANS

Send for Elbert Hubbard's new book—"Health in the Making." Written in his attractive manner and with his shrewd philosophy together with capital advice on Sanatogen, health and contentment, it is a treat to read. Tear this off as a reminder to address THE BAUER CHEMICAL CO., 257 Irving Place, New York.

The Times and Sunset Magazine

To advertise California and its two great Expositions, at San Francisco and San Diego, The Times will allow any subscriber, old or new, to mail Sunset Magazine for six months to any address in the East for 25 cents, an amount only sufficient to pay the postage.

This is an unusual opportunity for the public-spirited citizen of Southern California and the Southwest to do some very effective advertising.

The Times is recognized as a leading power in the work of exploiting reliably and potentially the agricultural, horticultural, mining and commercial and other resources and other possibilities of this, the most promising land between the two seas. Both day and night reports of the Associated Press, special correspondents of its own at the centers of population of America and Europe, and a large force of eminent writers enable The Times to regularly give its readers a larger variety of interesting pen work and greater value for less money than any other newspaper extant.

Sunset Magazine will contain regularly each month a vast amount of highly interesting and instructive information on California and the Exposures; information compiled by noted writers who are interested heart and soul in the welfare of California, and who will put forth their best efforts to make Sunset Magazine productive of splendid results in getting people who live in less favored climes interested in our great State.

Town Date

Gentlemen:—I hereby subscribe for the LOS ANGELES TIMES and Sunset Magazine for a period of six months and will pay on demand the sum of 25 cents in addition to the regular subscription price of THE TIMES, which is to pay the postage charged on the Sunset Magazine. I promise to notify THE TIMES at once should I change my residence.

(New or Old)
Remittance of 25c must accompany this order.

FIRST AND BROADWAY,
Branch Office: 619 South Spring St. Telephone: Main 8200; 10391.

This is the new Florence Crittendon Home, at Avenue 33 and Graham street, to which the institution is now being moved. At the top and bottom are some of the babies who owe their lives to its ministrations.

occupancy of the new quarters marks the close of a long and discouraging fight for an adequate home for the unfortunate young women.

Twenty-four women and twelve babies are now enjoying the comforts and modern conveniences of the home, made possible by the generous gift of \$50,000 by Mr. and Mrs. O. T. Johnson. One of the patients who started from the old location did not reach the new building, but was hurried to another hospital, where she became a mother in a few minutes.

Mrs. Frank Stoddard, president of the board of managers of the home, superintended the moving operations. She had the assistance of several men of the board, including ex-Senator Hurd, attorney for the home, and John S. Mitchell. The women and the infants were transferred to the new home in the motor cars of ex-Senator Hurd and Mr. Mitchell, each making four trips. All the work of moving was done by volunteer helpers.

THE FURNISHINGS.
The equipment of the old building was used to furnish the third floor of the new, where all the patients are quartered for the present. Mrs. Stoddard is furnishing the second floor with the assistance of her friends.

The assembly-room, library and maternity ward will be furnished with money from the Stoddard fund, created two years ago on the occasion of the celebration of the twenty-fifth wedding anniversary of Mr. and Mrs. Stoddard. They requested that their friends make donations to the Florence Crittendon Home rather than to themselves.

At the solicitation of Mrs. Stoddard, the Elg Brothers furnished room No. 1 on the second floor. Other rooms were furnished by the following: Mrs. J. S. Vooburg, F. A. Thompson, T. A. Miller, Los Angeles Chapter, Eastern Star; Kings Daughters of Hollywood; and the Westlake Sunshine Society, of which Mrs. E. B. Crowder is secretary. The Women's Auxiliary of the home will furnish the dining-room with money taken at the banquet given for the benefit of the home, December 19 last.

The new building will not be open to the public until after February 1, when callers will be admitted Thursday of each week. The dedication and the formal opening of the building will be observed at next Easter time.

The new home has a capacity of seventy-five patients. Donations of money, carpets and furniture are needed to complete the furnishing of the building. A training school for nurses has been established.

"The new building has been furnished so far without taking one cent from the home's general fund," Mrs. Stoddard said yesterday. "It is a great satisfaction to be occupying the grand new building. There have been times when it appeared that its occupancy was a long way off, but we are there at last with plenty of room indoors and out."

MANY TROUBLES.
After the cash donation of Mr. and Mrs. Johnson made the erection of a new home possible, a site was purchased on Loma drive, near the Mary Andrews Clark Memorial Home. Strong pressure from residents of the fashionable neighborhood and other sources resulted in the sale of the lot a year ago.

After the disappointment of having to surrender the desirable location on the hill, several months were devoted to a still hunt for another building site. The purchase of the present five-acre site on Avenue Thirty-three was announced last May. Property owners in the neighborhood immediately went into court in an effort to halt the building plans. The home was in every contest and the building was rushed to completion.

There seemed to be little hostility

in the neighborhood when the babies moved in, Mr. Mitchell said. "I believe there has been a change of feeling and I predict there will be a further change in favor of the home as its work becomes more familiar to the neighbors. I prophesy that in a short while some of the home's most loyal supporters will be found right there in the neighborhood."

DID YOU KNOW THAT—
There Were Nearly Five Thousand Miles of Wind Last Month.

During last month there were 4599 miles of wind in Los Angeles. Any old witch that could ride it could have gone the same distance as around the world. No one realized the weather was unrelenting so much wind. It came sneaking in from the northeast with sort of a slow, easy gallop, not doing over eight miles an hour much of the time. Occasionally it would sprint, having much pleasure in taking the downtown corners at a gusty rate. Then it would slow up and go trotting out of town. The fastest time it made was thirty-one miles an hour, and it kept that pace for five minutes, to the great concern of unanchored blinds and restless shingles, also wearing apparel of the lighter sort. The average temperature for the month was fifty-three and four-

Beginning this morning, several departments of the city and county government will be managed by men elected November 3 by the people to handle their official business during the next few years. While there are fewer changes this year in the official family of the county than ever be-

With \$6 and a watch, S. H. Eckhardt, No. 4012 Compton avenue, could find no hope in life. So he went out to sea yesterday at Venice and no one has seen him come back, and his clothes and the watch and the \$6 were left behind in one of the bathhouse dressing-rooms.

No one knows his trade or his identity. He came to Venice yesterday with many others for a Sunday swim, the surf having been a mild one for the seasoned swimmer. Quite a few persons were in the water, but not so many that one was lost in the group. So when the person who was later identified as S. H. Eckhardt walked from the bath-house to the strand, he was noticed. He had left his room in his bathing suit, Mr. Eckhardt evidently had summed up his condition in one short sentence.

It read: "No work, no hope, no use" and was later found pinned to his clothing behind the locked door. Beside it lay the \$6 in currency and the watch that was ticking faithfully.

Not once after he left the shelter of the bath-house did the man turn his head. He walked into the water, and the whiteness of his skin did not indicate a hardened swimmer. But he didn't flinch. Above his knees the water came, and when about his waist, and as it reached his shoulders, he bent over with his face to sea, and took a breather.

Farther out he came to the surface again, plowing for the open sea. The men on the beach were playing games to keep warm.

Some one noted the swimmer a little later. "Quite a ways out" and that was all that was said.

Not once did he turn his head. To those on land who were getting ready for their warm rubs he grew smaller and smaller. And at last far out in the distance, where the vagueness of death itself is hinted in the tint where sky meets sea, they saw the small spot bobbing and a straining eye could see it bobbing again, and then the little spot went out to sea, and all that came back, after a short swim, was a sea gull that had something important to tell its mate.

The officials are hunting relatives of the man who could find no hope in \$6 and a watch.

Bartlett Music Co. at it again. Forty years of successful business has taught us how to sell pianos at less than others. Great ten-days' sale now on. One whole year's payments free. This is your opportunity.

No stronger proof of the merit of Akoz could be found than the great mass of letters from those who have been relieved of their ailments by using this exceptional mineral discovered near Yosemite Valley by John D. Mackenzie, former State Labor Commissioner and State Harbor Commissioner.

Akoz has won a most enviable place as a remedy for rheumatism, stomach, kidney bladder and liver trouble, eczema, catarrh, piles and other ailments during the year and a half it has been on the market.

Of the thousands who have ended their ailments by using Akoz, following is a list of a few of the residents of Los Angeles and vicinity, who have voluntarily written the Natura Company, telling of their recovery:

Mrs. Frank Johnson, 421 S. Fremont st., rheumatism and stomach trouble.

John F. Cronin, claim adjuster, 2718 E. Second st., rheumatism.

E. D. Zehner, real estate dealer, 2044 Milan ave., rheumatism and neuritis.

T. J. Dunnigan, head porter, Van Nuys Hotel, stomach trouble and piles.

Sen. W. H. Savage, attorney, San Pedro, stomach trouble and bronchitis.

Mrs. Clara Witherspoon, 324 Ave. 52, Garvanza, catarrh, rheumatism and paralysis.

S. J. Brown, 115 W. Seventeenth st., rheumatism.

G. W. and J. N. McCay, Redlands, rheumatism and chronic constipation.

Llewellyn Iron Works, emergency cases, as cuts, burns, sprains and bruises.

Mrs. Frank Jackson, 408 W. Forty-seventh place, rheumatism.

Spiro Mandich, 529 W. Seventy-fourth st., rheumatism, stomach and bladder trouble.

C. S. Brzoka, grocer, 3013 W. Seventh street, sciatic rheumatism.

H. J. Boege, 136 S. Central ave., rheumatism.

G. Denbroeder, ship fitter, 150 W. Third st., Long Beach, kidney trouble.

Leaving Behind His Earthly Possessions He Swims Out to Where the Sky Meets the Ocean, and Only a Lone Seagull Saw What Happened.

With \$6 and a watch, S. H. Eckhardt, No. 4012 Compton avenue, could find no hope in life. So he went out to sea yesterday at Venice and no one has seen him come back, and his clothes and the watch and the \$6 were left behind in one of the bathhouse dressing-rooms.

The Times

LOS ANGELES

MONDAY MORNING, JANUARY 4, 1915.—4 PAGES.

PART III.

BURMAN BEATS BARNEY AGAIN—SMASHES MARK.

Wow!
RECORDS FALL
BY THE DOZEN.

Or Nearly So When Bob
Beats Barney.

Oldfield Quit After He was
Lapped.

Broken Valve Given as His
Reason.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]
BAKERSFIELD, Jan. 3.—Bob Burman in his French Peugeot, racing fifty miles here this afternoon against Barney Oldfield in a Fiat, broke every world's record for five to fifty miles for a circular mile dirt track, turning the latter distance in forty minutes and fifty-eight seconds. Oldfield lost the pole on the top up for positions and was headed by an ever-increasing distance until the completion of the thirtieth mile, then a broken valve caused his withdrawal. Following are the records established by Burman:

Five miles, 4:04 2-5.
Ten miles, 8:16 2-5.
Fifteen miles, 12:33 1-5.
Twenty miles, 16:53 3-5.
Twenty-five miles, 20:23 4-5.
Thirty miles, 24:37 4-5.
Thirty-five miles, 28:47 3-5.
Forty miles, 32:53 3-5.
Forty-five miles, 36:58 3-5.
Fifty miles, 40:58.

Except for Burman's magnificent speed and masterful driving on the turns, there was nothing sensational or picturesque about the record making. At the start Burman opened up a lead of at least 100 yards, at the five-mile point he was three-eighths of a mile ahead, and at ten miles he was leading by half a mile. On the twenty-ninth mile Oldfield was lapped and withdrew on the next rounding of the course. Burman's average time during the fifty miles was seventy-three and two-tenths miles an hour. The previous best record for fifty miles was made by Dismore at Detroit in 1910, and was forty-five minutes and thirty-two seconds, so Burman's time is four minutes and thirty-four seconds better than the previous established record. An electric timer was not used, but five judges held stop watches, a sufficient guarantee of the authenticity of the record. The track, built by Paul Derkum in 1913, was in excellent condition, hardened by recent rains and well dampened by several days of foggy weather.

HOCKEY SEEMS TO
BE SOME PASTIME.

FIVE PLAYERS LAMED IN THE
HOSPITAL FOLLOWING A
SCRIMMAGE.

[BY A. P. NIGHT WIRE.]
CLEVELAND (O.) Jan. 3.—The third game in a series of hockey matches between the Cleveland Athletic Club and the Ottawa University broke up last night in a riot, when 2000 spectators crowded onto the ice following a dispute between players, with less than two minutes to play.

Five members of the two teams were severely hurt, one, Elmer Irving, right forward of the C.A.C. team, so seriously that he was taken to a hospital with a fractured skull. His recovery is said to be doubtful. Raymond Quinn and James Burnett of the Ottawa team also were injured, as were Caddy Winters and Clarence Jamieson of the local seven.

Rivalry between the two teams has been intense. Cleveland was leading tonight by a 2-to-0 score. Last night's engagement ended in a 3-to-2 draw, while Thursday the local boys were 2-to-1 victors.

Goal Tender Doran of the Ottawa seven was arrested on a charge of assault to kill following tonight's fight.

MOVE TIGERS
IN 60 DAYS.

Plans for moving the Venice baseball plant to Vernon have been figured out to a minute.

It is true that the directors have not yet taken final action in the matter, but when the league does vote to move the club, as seems certain, the time will be so short that it is important to have all plans arranged in advance. The vote of Maier and Darmody probably will be the only ones cast in favor of Venice.

The situation already has been thoroughly investigated by a contractor. In his report, he states that the plant can be dismantled, placed aboard the cars and re-erected at Vernon in a complete and finished condition in the space of sixty days. Thus Jack Doyle figures, that by starting the work on February 1, the park would be in shape for the opening of the season. The fence can be moved in sections, but it is probable that the handsome grand stand will necessarily be reduced to a shapeless mass of boards and planks.

How to be healthy.
Miss Tsuru Aoki taking her exercises at her home, to which she attributes her health. On the left she is wrestling with Mr. Harikawa while on the right she is posing with a Japanese spear used in fencing.

Government.
TRI-SERVICE ENTRANTS
TO USE REGULAR ARMS.

GOOD news was brought to Troop D by Maj. Dockery, cavalry instructor of the National Guard of California, in the statement that an issue of Colt's automatic pistols is shipped for their use from the government arsenal, and that both pistols and ammunition will be here in ample time for their use in the tri-service revolver match on February 7.

Target practice with the revolver has largely been discontinued by the guards on account of the expectation of the new issue of government automatics and the necessity of conserving their small supply of revolver ammunition until the new arrives.

Capt. Gunn and his men now quietly assert their intention of doing some solid work at the targets with the new pistols prior to the match, and with their full complement of men expect to present two or more teams in the line-up. Members of the machine gun company have their pistols, but have never received an issue of pistol ammunition. They are anxious to get the cartridges in order to commence practice, and hope to qualify one or two teams for the match in case a shipment arrives. Battery A gunners are ready to shoot with either weapon at any old time, having assiduously prepared for the match with their old 38's. Three five-men teams are reported as qualified for the match from this command.

Col. Schreiber has also awaited receipt of new weapons before qualifying his regimental headquarters staff team, but says they will be on deck when action begins. Officers of the police department are showing such spirit in volunteering for

TAKE EXERCISE
TO BE HEALTHY.
JAPANESE ACTRESS TELLS HER
SECRETS OF BEAUTY
AND GRACE.

Women are beautiful and healthy
in proportion to the amount of exer-
cise they take and that is the reason
why California girls are among the
most beautiful and healthy in the
world, says Tsuru Aoki, the beautiful
Japanese actress who makes her home
in this city.

Miss Aoki is a wonderful athlete for her weight. She tips the beam at slightly over 115 pounds and is always in perfect condition, due to her regular exercises. She is an expert at jiu-jitsu, fencing and several other sports but her favorite form of activity is a sort of fencing done with a long spear about nine feet in length and slightly curved at the end. This is the national weapon of the women of Japan and garbed in the national costume, she often spends her time practicing the art. "I believe in lots of hard work and strenuous exercise followed by plenty of sleep. They result in good health and good looks. Dancing is a fine exercise and is less strenuous than most of the exercises that I take. "As for meals, I believe in eating whatever suits my taste but not eating too much of it and eating only at regular hours. The secret of good health is good food, good hours, good exercise and good sleep."

Rebuilding.
TIGERS WILL
TRADE LEARD.

Venice Club will be Greatly
Changed.

McArdle Also is Through as
a Tiger.

President Maier has Several
Deals Pending.

BY HARRY A. WILLIAMS.

They tell us that the leopard can't change its spots, an assertion which we will not attempt to dispute, never having had any inclination to investigate a leopard.

Be that as it may, there is a member of the feline family that can effect a change in its general appearance with neatness and eclat. The Venice Tiger, most celebrated of its kind, is right now in the throes of such a transformation.

CHANGED.
And it will be so complete that next spring some of the fans will hardly recognize the old fighting beast until they have taken a second or third, or possibly a fourth and a fifth look.

The rehabilitation is taking place even now, but with such secrecy that with one or two exceptions the changes can be discussed only in general terms.

Deals are now pending, and practically assured of completion, that will largely transform the club in every department, aside from the outfield.

FAREWELL.
Although no definite statement to that effect has yet been issued by any of the club officials, it can be stated positively that Bill Leard has played his last game as a Tiger. The same probably holds true of Harry McArdle.

Just what disposition will be made with these men cannot be learned, but one or both of them probably will figure in trades now being arranged, or which have already been clinched and only await the announcement of the fact.

THE PLANS.
Two plans are being considered. In the event that Joe Berger is secured from the White Sox, Hoop will be given a trial at second base. There is no doubt that he can play the position, that having been demonstrated. Whether or not he can stand the steady grind is the main issue. It is believed, however, that he would be less liable to injury in that position than at short, where he seems to be pursued by a "linx," and would get by nicely with a helpmate of Berger's caliber.

In case this arrangement does not pan out the club will have an entirely new keystone combination. The trade for Helling appears to settle things at third base. Doc White will be given a chance to qualify at first base. Should he, after a trial, decide that pitching is his forte, a new first baseman will be purchased.

ON THE WAY.
Maier and Hogan have a sufficient number of deals pending, say, to insure the club being strongly fortified in every position, despite the large number of changes that will be made.

Alcock and Berger had been mentioned as possible Tigers the coming season. The former, however, has been sold to Oakland, while a Chicago dispatch says that Berger has been pledged to Col. Ruppert, new owner of the Yankees. Ruppert, it is understood, insisted that he be granted the privilege of buying Berger, High of Detroit, Regh of Boston, and certain other players as one of the conditions of his purchase of the New York club.

HOPES.
Maier, however, has not received any direct word of Berger's transfer to New York, and still entertains the hope that he can be secured for the Tigers.

"Even should we not get Berger it will not greatly interfere with our infield plans," said Maier. "We wanted him, but his presence is by no means essential to the rebuilding of the club."

"With the major league clubs reducing a large number of high-class men will be available. We have satisfied ourselves on this point. Hogan has been given practically carte blanche in the purchase of new men and the indications are that we will have a greatly improved team in the field this year."

J. RIVERS OFF
FOR THE EAST.

Joe Rivers and his manager, Joe Levy, left on their eastern invasion yesterday. They go directly through to Chicago and expect to tear off about ten short bouts during their trip.

Joe has fond hopes of getting Charley White in the ring with him during his trip, but no fight has been arranged as yet between the two men. Joe also hopes to get a return bout with Johnny Dundee.

From the way Rivers mauled Dundee for the first ten rounds of their recent fight in this city, he stands a good chance of making the best of them hustle back East.

MIDWICK POLOISTS AGAIN
SWAMPED BY CORONADANS.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]
SAN DIEGO, Jan. 3.—The final polo game of the match for the Coronado cups today was a contest between Beadleston, the crack of the Cooperstown club, and Maj. Row of the Coronado team, playing opposite each other at No. 3. Spectacular plays by both of these men kept the crowd on tiptoe, and a steady stream of coaching and excited protests from these two experts, not always of the drawing-room brand of language, apparently added to the game from the standpoint of the grand-stand crowd.

The score was 6½ to 3½ in favor of the Coronado team and the cups will go to that team, as the score on New Year's Day was 12½ to 3 in their favor.

One of the prettiest plays of the day was made by Maj. Row in the sixth period when he drove the ball half-way down the length of the field to goal.

The score:
Midwick—Goals, Le Boutellier, 2; Beadleston, 2. Total goals, 4. Penalties, Burke, foul; net score, 3½.
Coronado—Goals, Harry Weiss, 2; Reggie Weiss, 1; Row, 2; Slack, 1. Total goals, 7. Penalties, Slack, foul. Net score, 6½.

Wad Never Would Have Been Able to Open the Panama-California Fair

By Gale.

Wad Never Would Have Been Able to Open the Panama-California Fair

Owner Says There will be Nothing Doing in the Fair of Trades Unless McCredie Raises His Bid. Outfielder is Great Run-getter—Remains of Athletic Undeniable.

BY HARRY A. WILLIAMS.

WAD CARLISLE should not be allowed to grow this over the head of the man who may be sentenced to the penitentiary for some already known reason. It is a pity that the man who has been so successful in the past should be so foolish as to let his head grow this over the head of the man who may be sentenced to the penitentiary for some already known reason.

News of the Coast League Clubs

BERRY TIES UP WITH DETROIT.

TIGERS TO TURN UNREASONED YOUNGSTERS OVER TO SEALS NOW.

(BY DIRECT WIRE—RECEIVED DISPATCH.)
SAN FRANCISCO, Jan. 3.—Henry Berry, owner of the Seals, has effected what is known in baseball parlance as a working agreement with the Detroit Americans. Stripped of technicalities, this means that when the Detroit club has youngsters and others who cannot be used to advantage in the major league, San Francisco will have first call on the services of such men. Arrangements of this sort are common over the country, but the Seals have never before been in a position to avail themselves of outside talent in this manner.

Cal Ewing was against the "agreement" plan, preferring to have an unlimited title to his players. For a time the San Franciscans were popularly supposed to be in close touch with the Chicago Americans, but it was an arrangement that worked chiefly in favor of Charles Comiskey, hence, it was cast aside.

McCredie of Portland has unquestionably secured good results from his association with the Cleveland Americans. The Angeles have worked in harmony with the Washington club in similar fashion.

For a time the San Franciscans were popularly supposed to be in close touch with the Chicago Americans, but it was an arrangement that worked chiefly in favor of Charles Comiskey, hence, it was cast aside.

BEAVERS MAY NOT TRAIN AT TUSCON.

ARIZONANS MUST COME ACROSS WITH \$2000 TO GET MCCREDIE THERE.

(BY DIRECT WIRE—RECEIVED DISPATCH.)
PORTLAND, Jan. 3.—Walter McCredie is out with the statement that he may not train his 1915 Beavers in Tucson, Ariz., after all. It is not because of the liquor drought down there, says Walter. It is because the Beaver manager fears that his demand for a guarantee from the Arizonans may be too great. It is in the neighborhood of \$2000.

"I don't know now whether we shall go down there or not," said McCredie. "I must have the guarantee which Tucson agreed to give me, for I am going to take no more chances. The extra expense is too great. I have not heard that they cannot raise the guarantee, but their recent silence would lead me to believe they are having some trouble."

"If not Tucson, then, maybe Fresno or Bakersfield will be our training point. For myself, I prefer Fresno. I can get a fine rate at the hotel, the free use of a good ball park and the clubhouse and showers. The weather there is fine and the treatment splendid."

W. J. MacDonald won three and lost three matches. G. G. Hatch lost four matches and won one, from Dr. West Hughes. F. R. Harris played and won three matches, beating E. N. Mackey, 2 and 1; F. R. Harris, 2 and 1; and W. D. Card, 2 and 1.

George E. Day won all his matches—four from W. P. Trible, 3 and 1; from J. F. Graves, 2 and 1; from W. D. Card, 4 and 2, and J. F. Taylor, 4 and 3.

And that formidable list records for half a dozen matches that have been played in this exciting round robin, in which no one is eliminated until the last match has been played. It is to prove a thoroughly popular event, and should be concluded in a couple of weeks. The winners of each section play each other in a final thirty-six-hole match for another trophy.

SCHMIDT STILL WANTS TO GO UP.

CATCHER WILLING TO WORK FOR SEALS IF MAJORS PASS HIM BY.

(BY DIRECT WIRE—RECEIVED DISPATCH.)
SAN FRANCISCO, Jan. 3.—Walter Schmidt writes from Calistoga, in the Imperial Valley, to say that while he has not abandoned hope of working into a major league berth he realizes conditions are far from good at the present time, and he will be satisfied to backstop for the Seals if nothing else comes up. He writes as follows: "We beat our old friend, Hastings on Christmas day, 3 to 1. His teammates fell down behind him in the eighth. He sure looks good for the coming season. Roy Corhan looks better than he ever did, and plays all over the field down here. Both Corhan and Bancroft are doing some great fielding. I still have hopes of getting up to some club in the majors, but the conditions of baseball at the present time will make it hard to swing a deal. I have signed with San Francisco for 1915, and if I can't get up to the big show will be with the Seals again."

W. J. MacDonald won three and lost three matches. G. G. Hatch lost four matches and won one, from Dr. West Hughes. F. R. Harris played and won three matches, beating E. N. Mackey, 2 and 1; F. R. Harris, 2 and 1; and W. D. Card, 2 and 1.

George E. Day won all his matches—four from W. P. Trible, 3 and 1; from J. F. Graves, 2 and 1; from W. D. Card, 4 and 2, and J. F. Taylor, 4 and 3.

SAN PEDRO UMPIRE MAKING RECORD.

SUITS HOME FANS WHEN THEIR TEAM BEATS TUFTS-LYON NINE.

(SPECIAL CORRESPONDENCE.)
SAN PEDRO, Jan. 3.—The San Pedro Merchants' baseball association blanked the fast Tufts-Lyon delegation here today before a record-breaking attendance in one of the best ball games of the season, San Pedro, 3; Tufts-Lyon, 0.

Smith, pitcher trader to Portland by Hap Hogan for Yanta, was on the mound for the locals, and he heaved a brand of ball that would even stand any Coast League team on their heads. Smith clinched his own little ball game in the second frame when he singled and was ushered to second when Kelly, the opposing slasher, hit Ardian. Not satisfied with the effect he had on Ardian, Kelly proceeded to demonstrate his throwing power, using Rabbit Garley's mid-section as a demonstrator. With the bases drunk he walked the next batter, scoring Smith. Rabbit Garley scored for the locals in the eighth.

The game was a very fast affair, lasting one hour and twenty-eight minutes. Smith, Garley, De Maggio, Schultz and Martin grabbed the batting honors of the day. The local team with Carl Sawyer, Micky Schultz, Eddie Martin and Rabbit Garley had one of the fastest infields in Southern California. Shono Ardian, Nick De Maggio and Babe Jensen compose the outfield.

Providing arrangements can be made the local management will endeavor to secure the Tufts-Lyon next Sunday's fracas. Tiger Duffy, local umpire, is fast gaining a reputation as one of the best arbiters in Southern California. The score:

San Pedro 3 R. H. E.
Tufts-Lyon 0 0 1
Batteries: Smith and Fitzgerald; Kelly and Finley. Umpire: Tiger Duffy.

Wilmington dropped two games in the baseball world today. The Wilmington Merchants were defeated by the Watts club, 5 to 3, and the Wilmington, Jr. team won the short end of a 10 to 2 affair. Kid Arcey, who battled Red Watson, Hobo Dougherty, Billy Applegate and other milt artists of international fame, acted as arbitrator and made good from the jump. The scores:

Wilmington Merchants 2 R. H. E.
Watts 5 10 3
Batteries: Davis and Fairall; Berg and Palf. Umpire: Archie and Stillman.

BAD WILMINGTON START FOR YEAR.

BOTH BALL TEAMS BEATEN. WATTS AND COMMERCIALS VICTORS.

(SPECIAL CORRESPONDENCE.)
WILMINGTON, Jan. 3.—Wilmington dropped two games in the baseball world today. The Wilmington Merchants were defeated by the Watts club, 5 to 3, and the Wilmington, Jr. team won the short end of a 10 to 2 affair. Kid Arcey, who battled Red Watson, Hobo Dougherty, Billy Applegate and other milt artists of international fame, acted as arbitrator and made good from the jump. The scores:

Great Foursome at the Midwick

THEY HAD SOME ROUND ROBIN.

EVERYBODY PLAYED EVERYBODY ELSE NEARLY.

(BY ADNA WHITAKER.)
Nat Means and Craney Garts played a perfectly wonderful game at the Midwick yesterday when they defeated A. French and George Clins by 8 up and 5 in a 36 hole foursome. They had a best ball of 68, par for the course being 74 and the best score turned in up to Saturday, since the course was bunkered, being 73 by E. S. Armstrong.

Anyone who breaks 80 at the Midwick just now is playing good golf, so that the game those young golfers put up was in brilliant vein. The two older stars were out-played and out-classed throughout the match. Means and Garts played a charmed game, straight long drives, clever mid-iron, irrefragable putting and approaching.

Cline is a San Gabriel man and the rest Annandale. The round robin golf at Annandale is proving a book-keeping conundrum. There are 44 players and each man has to play 21 matches. So Palmer, the club secretary, brought his massive British brow to bear on the problem of keeping scores and plumped for the baseball league system. It is highly successful but rather terrific.

So far E. N. Wright has played seven of his matches and lost but one of them, that to C. Nemeyer by 1 down. In the course of his victorious career he vanquished N. F. Means, 3 and 1; E. N. Mackey, 2 and 1; Dr. West Hughes, 2 and 1; G. G. Hatch, 5 and 4; O. F. Lindman, 4 and 3, and I. L. Merrill, 3 up.

W. J. MacDonald won three and lost three matches. G. G. Hatch lost four matches and won one, from Dr. West Hughes. F. R. Harris played and won three matches, beating E. N. Mackey, 2 and 1; F. R. Harris, 2 and 1; and W. D. Card, 2 and 1.

George E. Day won all his matches—four from W. P. Trible, 3 and 1; from J. F. Graves, 2 and 1; from W. D. Card, 4 and 2, and J. F. Taylor, 4 and 3.

And that formidable list records for half a dozen matches that have been played in this exciting round robin, in which no one is eliminated until the last match has been played. It is to prove a thoroughly popular event, and should be concluded in a couple of weeks. The winners of each section play each other in a final thirty-six-hole match for another trophy.

"LLO Harry?"

"Sameyou!"

"Naw, getout!"

"Tshure!"

"Mean to tell me you're goin' lug home some shaved jitneys—you can't put it over!"

"Listen TO me, Louis, turn an ear for this throbby treasure."

"Set!"

"Over on page 5, Part I, there are words by F. B. Silverwood. Regular twice-a-year words, Louis."

"Yea, yess, yea!"

"They vibrate redeemed dollars, clinking clinkle, Louis. Don't misunderstand me, they vaunt not in a strained tone, but, rather conserv, tell us of the final clothing sprint of the season. Everything goes at considerable less—enough to tease my attention, knowing the established reputation of that 'Conscience' store."

"Hear, hear!"

"Not antiques, boy, but the winter's goodies. And all wool, all wool, a-sewn with silken thread by master fingers. Shaped the same to THE style that stays."

"Point me the page, youth!"

"Glad to hear on it. There is one thing worthy prayer, Louis, and that is to be in the path of evolution."

"I am not—suspicion still gnaws at desire—give me a chance."

"ALLRIGHT—BUT—Louis—there is one beseechment I do make."

"Pull it cruelly, Harry, mind not I. Though I may be wary just a bit I WILL respond to reason."

"Peep the page, then hic you to the window displays and look you on the Hart Schaffner & Marx craftings with the price tickets affixed. You will nimble step inside, feel the fabrics, don them and forthwith go home a different looking man."

"I will, I will, I surely will."

"One thing more, Louis, be sure to slip the wallet in the pocket, else disappointment, the horrid thing, will smite thee mightily. For what you see today will not there be tomorrow."

"Bye!"

"Awreah!"

BY GRACE KIMBLEY

SPECIAL CORRESPONDENCE

Down the street Rox Middleton and Gus Hettling, Mrs. Rox and Mrs. Gus are also lords and ladies of a community castle. Clarence Brooks and Earl Makgerr of the Los Angeles contingent live next door and swap tales over a board fence. Each has a youngster generally to be found pawing round in the valley sunshine. Jack Ryan is the strongest anti-race suicide advocate; he has three little Ryans. Ideals for Teddy Kaylor is just one

Imperial Valley implement company and Walter Daniels, the Wells Fargo agent. H. N. Dye, City Attorney and Mr. Heber are the official scorers.

Imperial is one of the best ball towns in the valley. It has a great number of fans who never miss a game if it can be helped and among them are Roy Benton, Dr. Fred Jacobs, Walter Nagle, Tom Williams, Cecil Ernst, H. J. Hood, Roy Packard, W. E. Gray and Charley Shipman.

One Pitcher Cannot Work in All Games — Fielding
and Bunting to be Below 1914

have his control to win. When he's in his best form, he usually gets his best in warm weather and toward the end of the season. It must be said in his credit that he worked well Saturday. His team has a little more control in this case. Whether he can run into condition for the season is a matter of conjecture.

TWO GOOD ONES.

Occidental has two men on who should be right in the money now. Sempronio Ball is doing well. Sempronio ball has kept him working since last season. Ball is not, but is rounding into form.

Don't know; Ball has the stuff. Neither have played enough to have the pitcher's head. Ball has everything but experience, including control of a speed ball. He has had it in every game so far but he has had one bad inning.

Mutt and Jeff opened at the Majestic Theater last night to a good house and will be reviewed in The Times Tuesday morning.

Manager Hall's schedule for the week includes games between the following contestants in the following positions:

Fisher won 4, lost 0; Miller won 1, lost 1; Hill won 3, lost 1; Kohler won 2, lost 1; Orcutt won 2, lost 1; Fifer won 3, lost 2; Noel won 1, lost 1; Brewer won 2, lost 3; Church won 2, lost 4; Smiler won 0, lost 3.

Monday—Fisher and Fife, Miller and Noel.

Tuesday—Kohler and Hill, Fifer and Orcutt.

Wednesday—Church and Smiler, Brewer and Fisher.

Thursday—Orcutt and Noel, Miller and Fifer.

Friday—Miller and Smiler, Kohler and Fife.

LETTERS TO "THE TIMES."

Confederate Monument.
LOS ANGELES, Dec. 31.—[To the
Editor of The Times:] I read an ar-
ticle in one of our city papers a
short time since, which stated that
a monument is being started to erect
in Central Park to the Con-
federate dead. Now as grandson of an
old veteran, I wish to say that I am
most decidedly opposed to any such
thing being done. My grandfather
fought in the Mexican War and I
am proud of the fact that I am the
grandson of a veteran.

How to Prepare.
LOS ANGELES, Jan. 2.—[To the
Editor of The Times:] We have "only
a few guns and a few charges of
powder," yet we can furnish the rest
of the world with munitions of war
from heavy guns to millions of shells.
The preparations for war are not
difficult to decide:
(1.) Plenty of submarines.
(2.) Plenty of fast cruisers.
(3.) United States military col-
leges graduating 15,000 officers yearly.
(4.) Every man must win his State
medal for rifle shooting.
(5.) Plenty of rifles and ammuni-
tion ever ready.
(6.) Our efficient "Krupp works"
ever ready.

LIFE IN THE COUNTRY.
To Make the Farm Pay, One Must
Make the Best Crops and the Best
Best Animals.
[Brooklyn Gazette:] There's a
great deal to country life—it means
so much more than merely the fruits
of the earth. But mind, the fruits
of the earth are of importance. To
grow bigger corn or finer grapes, to
raise larger pigs and make better
milk and cream and butter—all of
these things are of high importance
and really are at the base of any
scheme of better living in the country.
One must have the better crops, the
better farm products, in order to make
the farm pay, and thus to have the
means for right country living. After
all, the country is more for living in
than it is for mere money-making.
Life primarily is designed for what
joy one can get from it. Happiness
is the thing that we all crave, the
thing that we all need. Happiness
best builds character. Happiness
comes from several causes, one a fine
state of health. Happily the country
affords the ideal place for bodily
health and vigor. Happiness comes
from use of the body in vigorous and
successful endeavor.

Salute to a Gallant Woman.
[Christian Advocate:] A salute is
blown to a gallant woman by every
steamer of the Clyde Line which
passes Southampton, N. C. This has been
the practice for forty-five years, and
as four steamers a week pass this
point, plying between New York and
Wilmington, the tribute has had fre-
quent enough repetition to be famous.
It is in recognition of a brave act
of life-saving which the heroine, Miss
Kate Stuart, performed when she re-
sued from drowning the little daugh-
ter of one of the Clyde line captains.
No wonder the salute is never omit-
ted, however dark the night or rough
the weather.

One whole year's payments
free on every new piano and
player-piano for ten days, at
Bartlett Music Co., opp. City
Hall. 40th Year Jubilee Sale
now on. Open evenings.
Phone for Auto.

A man's moment

Lately you have heard about slack business.
The men folks have more or less spoken
of economies. Maybe you have practiced
it more than usual.
Over on page 5, part I there is a statement for
your men folks. It will help them, help you.
It is sincere and gentle and the writer
has an established reputation for integrity.
Your men will be helped by it. Not only
in their pocketbooks but in their appearance.
It's their moment.
Hardly a man but what needs an extra
suit, for pressing engagements at least,
or an overcoat.
You will recognize the make and the
goodness the name of the maker stands for.
Men are prone to say, "I never read
advertisements." Dismiss all of them by a wave
of a hand. Often cheating themselves,
sometimes yep, of an opportunity at Frugality.
Look for F. B. Silverwood's announcement
on page 5, Part I.

The Superiority of Muslin Underwear Offered at Coulter's in the January Sale

Becomes more obvious as the Sale goes on: for we prepare months in advance, buying in large quantities, so that stocks are not depleted, even after brisk buying. The chief thing that sustains interest in a Coulter Undermuslin (or any other) Sale, however, is the fact that quality is always paramount:

Combinations				Hand Embroidered Skirts and Drawers

(Garments; Second Floor)

Special Prices on Coulter's "Rex" Sheets and Cases

A new brand, just introduced by us; these goods are made of extra heavy cotton, full bleached; no coarse threads that break in laundering. We believe these to be the best Sheets and Cases in the market today at their prices. They are finished with 3 and 1-inch hems; so sure are we that you will like them that we ask you to try them, launder them, and if they are not as represented by us, return them and receive your money back without question. We can obtain more for sheets of this quality after laundering than we can before. Our name would not appear on this new brand, if we did not have implicit confidence in their goodness.

Cases			
Torn size 42x36, each	20c		
Torn size 45x36, each	22 1/2c		

Girls' Wool Dresses Lower

Murder Mystery of Oregon is
at Last Cleared Up.

SALEM (Or.) Jan. 3.—A lock of his own hair from the clutch of one of his dead victims, who had fought desperately for her life and that of her child, held before his eyes, caused John G. H. Sierck, a 25-year-old inmate of the State Insane Asylum, to confess tonight to the killing of Mrs. Daisy Wehrman and her little boy in their cabin near Scarpsboro, Or., on the night of September 4, 1911.

George A. Thatcher, a Portland criminal, brought about today's denouement. He became convinced of Pender's innocence at the time of the trial. Asylum authorities declare there is no doubt as to the truth of Sierck's confession.

Mr. Thatcher said he made a canvass of those patients in the asylum who exhibited traits such as were manifested in the case. His investigation gradually led to Sierck. Unsuccessful himself in obtaining full confession, he enlisted the aid of the Rev. W. G. McLaren, the penitentiary chaplain, and obtained the impression.

Sierck's excuse was that he was drunk. After making the confession he put vigorously upon a cigar and declared he felt better than he had for a long time.

After making the confession he put vigorously upon a cigar and declared he felt better than he had for a long time.

THE ORIGIN OF BAPPING.

The Present Ditch Digging by the
Armies was Formerly Done by Pen-
ants Who Were Called Sappers.
[Washington Star.] The word "sapper" probably comes remotely from one or two Greek words—skapan, a hoe, or skaptein, to dig. The word, like a number of military terms, and especially engineering terms, comes from the French. In old French "sapper" and in later French "sap" were the words which stand for "hoe" or "mattock."

When the making of cannon had progressed so far that solid shot could breach stone walls, but when cannon were powerful enough to keep armed men at bay or to destroy them, it became necessary to make an approach to the walled position in a way which was difficult to attack successfully and for which at that time no way was known.

These sappers after a while were dug in a number of ways. Many forms of the approach trench were devised. Uncovered trenches were used, and the work of digging trenches was beneath their dignity, while it also availed of a disinclination to work with the enemy who was behind stone walls with cannon—cannon at which men armed with modern weapons would smile.

THE ORDEAL OF SILENCE
By Edwin Balmer
Pictures by Sidney M. Chase

Poe, Doyle or Gaboriau never spun a more amazing yarn of mystery than Edwin Balmer does in this story. It concerns two brothers, both prominent. One is suddenly and strangely murdered. The other persuades the authorities to take no action in the case for a period of three days. Under this ordeal of silence the murderer is shown as under a magnifying glass. The end comes like a thunder-clap.

CALL IN THE MIND DOCTOR
Automatic Remedies That Cost Nothing
By Henry R. Rose, D.D.
Starting in on 1915, now's the time to turn over
that new leaf—and whether it be to renounce alcohol,
to overcome fear, worry, insomnia or any vice,
this article is better than a book full of ordinary ex-
ensive prescriptions. Dr. Rose has one of the largest
congregations in the country and serves no ma-
terial interest in urging and demonstrating the dor-
mant curative power of the automatic mind.

AMERICA AND THE TRANS-
ATLANTIC WAR
By Champ Clark,
Speaker of the House of Representatives
Speaker Clark gives four reasons why the United States, as an innocent bystander who has been a bit shot up by stray shrapnel from the war, should permanently profit in the long run. He also maintains that "were the republic imperiled, its foreign-born citizens would be found among its staunchest defenders."

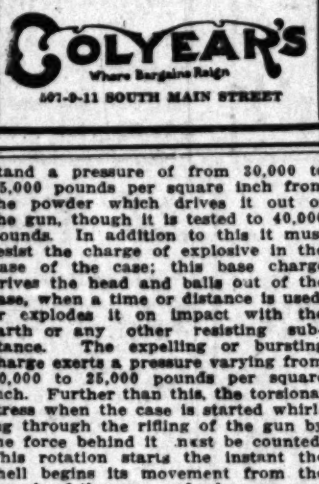

JORDAN IS A HARD ROAD
Serial Story
By Sir Gilbert Parker
Pictures by J. N. Marchand
Love, under a cyclone cloud, blows through this
fourth installment of the Gilbert Parker six-part
story. Cora Finley, never knowing her true parent-
age, meets a young Englishman—grandson of a
Duke—and the seeds of romance are planted.
The coming installments of this great story carry it
to a tremendous climax—a text for inspired
sermons.

SHALL SHE NOT HAVE A PLACE
IN THE SUN?
Editorial
By Mrs. H. H. A. Beach
The leading woman composer of America, in a vi-
gorous reply to what Walter Damrosch wrote about
women and music in the last number of THE NA-
TIONAL SUNDAY MAGAZINE, valiantly cham-
pions her sex and breaks a few lances with the New
York Symphony Orchestra conductor.

"THEM WIMMIN!"
Cover Design
By Leslie Thrasher
Speaking of women and their struggle for enfran-
chisement, Thrasher has made a picture that tells a
tragic or a comic story, according to your way of
thinking. Anyway, it's a big, bully story told in a
picture that is splendidly reproduced in colors.

stand a pressure of from 50,000 to
5,000 pounds per square inch from
the powder which drives it out of
the gun, though it is tested to 40,000
pounds. In addition to this it must
resist the charge of explosive in the
base of the case; this base charge
drives the head and balls out of the
case, when a time or distance is used,
or the gun, and when we consider
the earth or any other resisting sub-
stance. The expelling or bursting
charge exerts a pressure varying from
20,000 to 25,000 pounds per square
inch. Further than this, the torsional
stress when the case is started whirl-
ing through the rifling of the gun by
the force behind it must be counted.
This rotation starts the instant the
shell begins its movement from the
breach of the gun, and when we con-
sider that by the time it leaves the
muzzle it must have attained a
velocity of 1700 feet per second, we
can begin to see how an acceleration
of 500,000 feet per second is attained.
These pressures explain why it is
necessary to make use of such high
quality material. A tensile
strength of 135,000 pounds to the
square inch, an elastic limit of 118,000
pounds per square inch, an elongation
in two inches of 11 per cent, and the
contraction of area 25 per cent.

Good Laws in Panama.
A careful study of the judicial organization of the Republic of Panama, declares Walter S. Penfield in Case and Comment, the January Magazine, "leads to the conclusion that certain of its laws could well be adopted by the United States. It provides for official visits to the courts tend to stimulate the activity of the judges, and thus expedite the business of the courts. This permits the parties to appear before the judge in order to settle their controversy in an amicable manner, if possible, save litigation the unnecessary delays and costs which are too often caused in the trial of cases. A settlement of which might easily have been arranged beforehand through the good offices of the judge."

A Reasonable Excuse.
[Philadelphia Telegraph.] Smith was summoned as a witness in an aggravated case of assault and battery, and frankly answered every question put to him by the lawyers. Finally the judge turned to the prisoner with a look of surprise. "You mean to say, sir," severely remarked his judicial robes, "that you saw him thrown to the ground and beaten with a piece of lead pipe?" "Yes, sir, your honor," was the calm rejoinder of the witness. "You saw all that," returned the judge, with a show of indignation. "And never lifted a hand to help the unfortunate man?" "I thought," answered Smith, "I thought they was takin' pictures for the movies."

Rockefeller a Good Spender.
[Syracuse Post Standard.] The latest budget of the Rockefeller Foundation contains items of \$1,000,000 for Belgium relief, \$45,000 to aid the poor of New York, \$2,500,000 for medical research, \$750,000 to aid in rebuilding Wellesley College, and \$225,000 for the purchase of 800 acres for a bird refuge in Louisiana. It has been said in criticism of our millionaires that they know better how to make money than to spend it. That complaint does not lie against John D. Rockefeller. Whatever may be said of his method of making money, he certainly shows uncommon wisdom in the shrapnel case must be able to withstand the bursting pressure and the stresses developed in firing. Shrapnel Shell.
Several Scientific Questions Have
to be Solved Regarding Bursting
Pressure and Effect of Fire.
[Pittsburgh Dispatch.] The shrapnel is really a flying cannon, which shoots its charge while in flight or explodes on impact. Its design involves many interesting features. As the case must be strong enough to withstand the bursting pressure and the stresses developed in firing. The shrapnel case must be able to withstand the bursting pressure and the stresses developed in firing.
